

Discover the beauty and magic of Henna.

Don't know what you want to do on your birthday or some special occasion and want to make it very different and special?

I offer Henna Art for your parties, events or by appointment.

Henna (*Lawsonia inermis*) is a plant that has been used for thousands of years to decorate hair, skin especially the hands and feet.

Henna is applied as a paste and allowed to dry.

When the henna paste is removed, it leaves an orange-red stain that darkens to a warm reddish brown over the next day and lasts from one to three weeks.
